

Foresight[®] Thyroid EIA Test Kits TSH, Total T3, Free T3, Total T4 and Free T4

Foresight[®] Thyroid EIA Test Kits offer high quality and accurate Thyroid testing at an affordable price!

- Accurate and Reliable
- Convenient
- Easy to Use

Foresight® Thyroid EIA Test Kits

Accurate and Reliable

- High sensitivity with good reproducibility for all thyroid function tests
- Wide calibration range differentiates among various thyroid disorders
- Enhanced procedure available for TSH test as a helpful option for diagnosis of hyperthyroidism
- Cost-effective and comprehensive thyroid testing suitable for regular patient monitoring

Convenient

- Standardized procedure for TSH, Total T3, Free T3, Total T4 and Free T4
- Consistent specimen volume and reagent volumes across all 5 tests
- Total incubation time as short as 75 minutes
- Room temperature incubation eliminates the need for incubators
- Ready to use reagents shorten initial preparation time

Easy to Use

- Color-coded and numbered labeling for quick visual identification
- Individualized color for each reagent and across all EIA tests provides procedural control and efficient testing
- 96 microwell plate designed with breakaway 8-well strips in resealable foil pouch
- Compatible for use on automated sample processors or manual operation
- 12 month shelf life

Product Name	Catalog No.	Test Type	Incubation Time	Sensitivity	Tests per Kit*
Thyroid	TSH [✓]	I231-3011	Quantitative Standard Procedure: 75 min (60/15 min) Enhanced Procedure: 135 min (120/15 min)	Standard Procedure: 0.078 µIU/mL Enhanced Procedure: 0.03 µIU/mL	96
	Total T3 [▲]	I231-3041	Quantitative 75 min (60/15 min)	TBD	96
	Free T3 [▲]	I231-3051	Quantitative 75 min (60/15 min)	TBD	96
	Total T4 [▲]	I231-3021	Quantitative 75 min (60/15 min)	TBD	96
	Free T4 [▲]	I231-3031	Quantitative 75 min (60/15 min)	TBD	96
